COMPANY PROFILE

公司介绍

A MATERIAL PARTNER BUILT AROUND THE ORDER

围绕订单需求建立材料服务能力

Shanghai Taijia Metal Material Co., Ltd. specializes in stainless steel distribution, agency and supporting processing. Based in Shanghai and connected to regional steel, warehousing and logistics resources, we support industrial buyers with grade review, processing coordination, documentation, packing and delivery planning.

上海泰嘉金属材料有限公司立足上海，专注不锈钢材料销售、代理与配套加工，并围绕牌号、加工、文件、包装和交付组织订单信息。

01

MATERIAL SOURCING

材料供应

Coil, sheet, plate and strip across mainstream stainless grades and finishes.

02

PROCESS COORDINATION

加工协调

Slitting, cut-to-length, surface finishing, film and order-specific packing.

03

QUALITY EVIDENCE

质量依据

Material documentation, dimensions, surface condition and order records.

04

EXPORT PREPARATION

出口准备

Specification review, packing, shipping documents and logistics coordination.

COMPANY IDENTITY & CERTIFICATION

企业信息与质量体系

LEGAL NAME	Shanghai Taijia Metal Material Co., Ltd.
UNIFIED SOCIAL CREDIT CODE	91310114748088858N
QUALITY SYSTEM	GB/T 19001-2016 / ISO 9001:2015
CERTIFICATE SCOPE	Sales of Stainless Steel Plates
CERTIFICATE NO.	117 25 QU 0214-07 R1S
CURRENT CYCLE	23 Jul. 2025 — 20 Jul. 2028

PRODUCT FORMS

产品形态

FLAT PRODUCTS FOR DIFFERENT PRODUCTION ROUTES

适配不同制造路径的平板产品

STAINLESS STEEL COIL

不锈钢卷材

Master coil or slit coil for continuous forming and downstream processing.

RFQ CONTROLS

Thickness · Width · Coil ID/OD · Coil weight · Edge · Film · Packing

STAINLESS STEEL SHEET

不锈钢薄板

Flat sheet for stamping, bending, laser cutting, kitchen and decorative fabrication.

RFQ CONTROLS

Thickness · Width/length · Flatness · Squareness · Visible face · Film

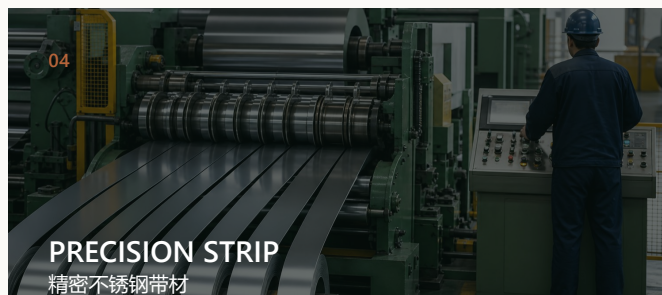

STAINLESS STEEL PLATE

不锈钢中厚板

Engineered flat product for equipment, vessels and fabricated structures.

RFQ CONTROLS

Order standard · Thickness · Dimensions · Edge/cut · Inspection documents

PRECISION STRIP

精密不锈钢带材

Slit-to-width coil for continuous stamping, automotive and precision production.

RFQ CONTROLS

Width tolerance · Burr · Edge · Camber · Coil shape · ID/OD · Packing

GRADE CROSS-REFERENCE

常用牌号对照

COMMON GRADES ACROSS ASTM / UNS / EN

美标与欧标常用牌号沟通参考

ASTM TYPE	UNS	EN	STRUCTURE	TYPICAL ROUTE
304	S30400	1.4301	Austenitic	General purpose
304L	S30403	1.4307	Austenitic	Low-carbon / welding
316	S31600	1.4401	Austenitic	Mo alloyed
316L	S31603	1.4404	Austenitic	Low-carbon / Mo
409 / 409L	S40910	1.4512	Ferritic	Exhaust / heat cycle
430	S43000	1.4016	Ferritic	Mild indoor service

304 / 304L

GENERAL-PURPOSE AUSTENITIC

Good formability and weldability with broad application coverage. The low-carbon L grade reduces sensitization risk after welding.
家电、厨具、食品设备、建筑装饰及一般工业制造。

316 / 316L

MOLYBDENUM-ALLOYED AUSTENITIC

Molybdenum improves resistance in chloride-bearing and more corrosive environments. Final selection still depends on media, temperature and design.
适用于更高耐腐蚀要求的化工、食品、沿海及换热应用。

409 / 409L

STABILIZED FERRITIC

A weldable ferritic route used in automotive and industrial exhaust applications where oxidation resistance and thermal cycling matter.
常用于汽车排气及工业排气系统；腐蚀性升高时需重新评估。

430

16% CHROMIUM FERRITIC

A widely used ferritic grade for mildly corrosive and mainly indoor service, balancing appearance, formability and economics.
常用于厨具、家电、水槽及室内装饰部件。

Cross-reference is for RFQ communication. The ordered product standard, edition and mill documentation govern final conformity.

SURFACE GUIDE

表面处理参考

SURFACE IS BOTH PERFORMANCE AND APPEARANCE

No.1

HOT ROLLED / DULL

Hot rolled, annealed and descaled. A rough, dull surface for industrial plate and further processing.

热轧、退火并除鳞形成的粗糙无光表面。

2B

GENERAL COLD ROLLED

A common cold-rolled finish, annealed, descaled and lightly skin-passed for broad fabrication use.

通用冷轧表面，兼顾平滑度与后续加工。

BA / 2R

BRIGHT ANNEALED

Bright annealed in a protective atmosphere; smoother and brighter than a typical 2B surface.

保护气氛光亮退火，比 2B 更光滑明亮。

No.4

ABRASIVE POLISHED

A general-purpose abrasive polished finish with a uniform visible grain.

均匀可见细纹，常用于厨具、家电和建筑装饰。

HL

HAIRLINE

A decorative longitudinal grain. Direction, shade and reference sample should be order-defined.

连续长直纹路，订单需确认方向、色差与样板。

MIRROR

No.8 / EN 1P / 2P FAMILY

A highly reflective multi-stage polished surface with sample-defined acceptance criteria.

多阶段精细抛光形成高反射表面，以样板确定验收边界。

ORDER NOTE

For visible or decorative surfaces, agree the reference sample, grain direction, roughness or gloss, acceptable shade variation, protective film and packing before production.

PROCESSING & ORDER CONTROLS

加工与订单控制

PREPARED FOR THE CUSTOMER'S NEXT OPERATION

让材料更接近客户的下一道工序

01

PRECISION SLITTING

精密分条

Custom-width strip with attention to tolerance, burr, edge condition, camber and coil shape.

02

CUT-TO-LENGTH

定尺开平

Coil leveling and cutting for downstream stamping, laser cutting and fabrication.

03

SURFACE FINISHING

表面加工

Grinding or brushing coordinated around grain, shade, visible face and protective film.

04

FILM & PACKING

贴膜与包装

Protection designed around forming, handling, storage, transport mode and destination.

ORDER CONTROL MATRIX

订单关键控制点

MATERIAL	Grade · Standard · Heat / coil identity
DIMENSION	Thickness · Width · Length · Tolerance
SURFACE	Finish · Visible face · Grain · Film
EDGE	Mill edge · Slit edge · Burr expectation
COIL	ID / OD · Weight · Winding · Shape
DOCUMENT	MTC · Inspection · Packing list
DELIVERY	Packing · Marks · Destination · Schedule

APPLICATION ENGINEERING

应用领域

MATERIAL CHOICES START WITH THE SERVICE ENVIRONMENT

材料选择应从实际使用环境出发

REPRESENTATIVE APPLICATION SCENE / 应用场景示意

APPLICATION / 01

COMMERCIAL KITCHENS & FOOD EQUIPMENT

商用厨房与食品设备

Cleanability, fabrication route, weld zones, surface integrity and process media should be reviewed together. Final grade selection depends on the actual service environment.

304 / 304L · 316 / 316L

2B · No.4

REPRESENTATIVE APPLICATION SCENE / 应用场景示意

APPLICATION / 02

AUTOMOTIVE MANUFACTURING

汽车制造与排气系统

Exhaust components require alignment of thermal cycling, oxidation, forming, welding, thickness tolerance, edge condition and batch consistency.

409 / 409L · 430

COIL · STRIP

APPLICATION ENGINEERING

应用领域

FROM INDUSTRIAL DUTY TO VISIBLE ARCHITECTURAL SURFACES

从工业工况到高要求可视装饰面

REPRESENTATIVE APPLICATION SCENE / 应用场景示意

APPLICATION / 03

INDUSTRIAL EQUIPMENT & ENGINEERING

工业设备与工程制造

For heat exchangers, vessels and fabricated equipment, specification, documentation, tolerances, weld zones and corrosion environment must be reviewed as one order package.

304L · 316L

SHEET · PLATE

REPRESENTATIVE APPLICATION SCENE / 应用场景示意

APPLICATION / 04

ELEVATOR & ARCHITECTURAL DECOR

电梯与建筑装饰

Visible panels require agreement on reference sample, grain direction, reflectivity, shade variation, protective film, handling and transport protection.

304 · 430

No.4 · HL · MIRROR

QUALITY EVIDENCE

质量与国际标准

DOCUMENTED QUALITY. ORDER-SPECIFIC CONFORMITY.

以文件建立质量依据，以订单确认最终符合性

ASTM / ASME & EN SPECIFICATION SUPPORT

美标与欧标订单支持

Where applicable and confirmed in the quotation, orders and documentation can be organized to customer-specified ASTM/ASME or EN grade and delivery standards.

ASTM A240 / A240M · ASME SA-240 / SA-240M · EN 10088-2

ORDER-SPECIFIC CONFORMITY NOTE

Final conformity depends on the ordered standard and edition, product form, producing-mill documentation, inspection requirements and order-specific technical confirmation.

最终符合性取决于订购标准及版本、产品形态、生产钢厂文件、检验要求和订单专项技术确认。

ISO 9001:2015 QUALITY MANAGEMENT SYSTEM

质量管理体系认证 · 认证范围：不锈钢板材的销售

INTERNATIONAL SOURCING

国际采购支持

A CLEAR RFQ CREATES A FASTER, SAFER QUOTATION

清晰询价，让报价更快、更可靠

01

REVIEW

Grade, standard, use and critical technical requirements

02

QUOTE

Dimensions, processing, packing, trade terms and schedule

03

EXECUTE

Material coordination, processing, inspection and records

04

DELIVER

Export packing, shipping documents and logistics follow-up

COMPLETE RFQ CHECKLIST

完整询价清单

- Product form and end-use application
- Grade, ordered standard and edition
- Thickness, tolerance, width and length / coil data
- Quantity, edge condition, finish and protective film
- Processing, packing, marks and document requirements
- Destination port, trade term and required schedule
